About RAM® Mounts

Headquartered in Seattle, Washington, RAM® Mounts manufactures rugged and versatile mounting systems for phones, tablets, and other mobile devices that can be attached nearly anywhere. Unlike other mounts on the market, RAM® allows you to secure devices where you need them most. The unique design of the RAM® Mounts system provides quick installation, adjustability, strength, vibration damping, and durability—all at a low cost. Backed by a lifetime warranty, RAM® uses powder-coated, marine-grade aluminum with lightweight and high-strength composites, stainless steel hardware, and rubber balls.

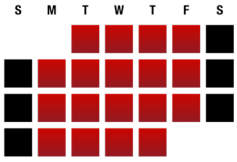
The RAM® Difference

Premium Design

RAM® Mounts are engineered for maximum durability, resisting wear, corrosion, and extreme conditions for long-lasting reliability and performance.

Customizable

RAM® Mounts is the only rugged mounting solution with thousands of interchangeable components and accessories to choose from.



Quick Lead Times

2-6 week lead time for custom orders, and 5-7 business days if you order on our website.

Lifetime Warranty

With a lifetime warranty on mounts, we back our premium products made for durability and reliability in the most demanding environments.

*1-3 year warranty on docks & electronics

National Products, Inc. (NPI)

Introduced in 1990, National Products, Inc. (NPI) quickly became the leading manufacturer of rugged and versatile mounting solutions. RAM® Mounts has grown to offer approximately 5,000 modular components—the most innovative product line of its kind for nearly any application and device, including phones, tablets, GPS systems, laptops, marine electronics, printers, radios, and much more.

In addition to RAM® Mounts, NPI is also the creator of award-winning IntelliSkin® sleeves and GDS® Technology™ products. IntelliSkin® sleeves ruggedize a wide range of consumer phones and tablets, while the GDS® Ecosystem™ provides users the ability to securely charge, dock, and sync devices in the most demanding environments.

NPI is proudly located in Seattle, Washington in the same neighborhood where the company was started.

Partner with RAM® Mounts

Here at RAM® Mounts, we believe that unfathomable things are possible with ingenuity. With a portfolio of more than 5,000 SKUs paired with innovative engineers and in-house product experts, we have the tools and expertise needed to create solutions that you didn't know were possible. We have the ability to solve your mounting challenges quickly, efficiently, and cost effectively.

ET40 / ET45
IntelliSkin® Next Gen

Wrap your Zebra ET40/ET45 in an IntelliSkin® Next Gen protective sleeve to unlock all the features and benefits of the GDS® Ecosystem™. By sliding your tablet into an IntelliSkin®, an integrated USB connector converts power and data sync through pogo pad contacts. These contacts sync directly to the pogo pins on GDS® Docks™ for a seamless high-speed charging experience with peripheral support.

Port Protection

IntelliSkin® is the only case system on the market that protects the device port and converts that connection point to ruggedized pogo pads for charging and data transfer.

Pogo Pin Connection

Unlock the GDS® Ecosystem™ with a large collection of docks built with an integrated Distinctive D Shape™ pogo pin connector for a hassle-free user experience that helps increase efficiency.

USB-C Access

An integrated external USB Type-C port is conveniently accessible, providing a reliable connection option for charging or data transfer when a GDS® Dock™ is not available.

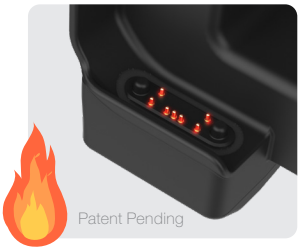
ET60 / ET65
RAM® Powered Form-Fit Vehicle Docks

RAM® Powered Form-Fit ET60/ET65 and ET60W/ ET65W docks built for durability and reliability with complimentary features that enhance the end user experience. Features like self-aligning dock pads, heated pogo pins, keyboard latch, and CAC reader accessibility help you tackle everyday tasks without skipping a beat.

Key Features

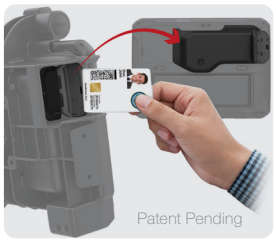
Self-Aligning Dock Pads

Unique triple-molded technology provides enhanced tablet contact to pogo pin alignment, plus additional shock and vibration damping.



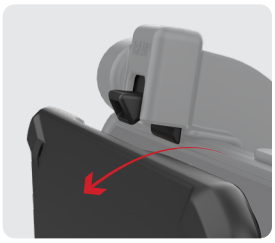
Heated Pogo Pins

Heating elements prevent pogo pins from locking up, allowing tablet operation in wet and freezing environments.



CAC Reader Access

Cut out on the side of the dock giving access to the Zebra CAC reader with the ability to open/ close the CAC reader door.



Keyboard Compatible

Docking latch allows the keyboard to open and close independently while the tablet remains docked.

RAM® Powered Form-Fit Vehicle Docks

These rugged docks are designed to get the job done in the field while keeping your device charged and secure from theft. Each form-fit dock is RAM® Mounts Compatible™ and can be expanded with any B or C size diamond base, double ball mount, or any base for your desired mounting location. Available for the EM45 and select Zebra Handheld Computers, including the Zebra TC2x, TC5x, and TC7x series.

Key Features

Pogo Pin Dock Contacts

Integrated pogo pin contacts provide charging power to the device and protects the device's ports from constant plugging and unplugging.

USB-C Connection

Integrated USB-C connector capable of 250,000 cycles meets and exceeds demands of modern workflows, delivering reliability in the toughest environments.

Mount It

With RAM® Compatibility™ customize your mount to your environment, or pair with these ready-made forklift kits.

COMPATIBLE

Handheld PCs
IntelliSkin® Next Gen with GDS® Tech™

Protect your Zebra handheld PC and its charging port by wrapping in an IntelliSkin® protective sleeve. This sleeve enables a seamless docking experience by instantly connecting the device to a charging source while docked in a GDS® vehicle or desktop docking station. The GDS® and IntelliSkin® ecosystem installs a turnkey solution into your business, improving the mobility of your warehouse and setting the framework for standardization.

Patented docking connector protects the charge port and increases work efficiency when paired with GDS® Docks™

RAP-101-PV4-NK-MAG88U
RAM® Single Pivot Magnetic Mount

New RAM® Powered Form-Fit Docks for Zebra Handheld Touch PCs

Designed to enhance handheld touch computers from Zebra, RAM® has purpose-built features set specifically to maximize performance, ease of use, data capture, security, and manageability—all in one revolutionary durable design.

Patent Pending

Heated Pogo Pins

Heating elements provide the necessary heat required to prevent pogo pins from locking up, allowing them to operate in wet and freezing environments.

Easy Docking

This holder is spring-loaded, making it easy for one-handed docking and removal. Securing the device from both ends allows safe docking position at any angle.

Pogo Pin Charging

Protect the charge port and increase efficiency by utilizing the device's pogo pad docking contacts—simply dock the scanner to keep the device charged and/or connected to peripherals.

Vehicle Mount Computer Solutions

When it comes to heavy duty equipment, RAM® Mounts is the most trusted brand for keeping these devices mounted without fault. For large Zebra vehicle computers, take advantage of the ultra-rugged forklift and vehicle mounts with VESA ball adapters designed to install directly into the back of the computer.

1

Choose a Ball Adapter

RAM® offers a wide selection of ball adapters and cradles for your specific device

2

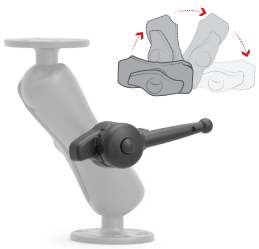
Choose a Socket Arm

Select a socket arm based on your desired length and placement

3

Choose a Base

Select from a variety of bases to help secure your device where you need it



This wrench provides the extra leverage needed to tighten the mount in cold weather or in small spaces
